

CREATE BIRTHDAY CARDS

STEP 1

We'll be attaching your birthday card creation to a fun gift! The creative opportunities are endless, but we suggest keeping size in mind when creating your birthday card.

STEP 2

Creativity time! Bring on the markers, paint, glitter, pom poms and stickers. Your card is getting the celebration started for these kiddos! We'll put their name on it later—it's your time to get the party started!

STEP 3

We celebrate children 1-18 and like to keep the messages generic to celebrate as many birthdays as possible! Here are some phrases to get you started:

- ▶ Birthdays rock! Happy birthday!
- ▶ Happy Birthday to YOU!
- ▶ Hip Hip Hooray! It's your birthday!

Please do not sign the card.
